Dear Parent/guardian,

Re: Parental registration to Connect

In November 2016 I contacted you about the Department of Education online learning portal, Connect. NMSHS will be providing access to parents of Year 11 and 12 students in 2017.

Parents who have been issued a login from a previous enrolment (PXXXXXXX) will already have access to connect.

Parents of Year 11 and 12 parents, who have provided the school with an active email address, will receive an automated email within the next week with instructions to obtain a unique login and password to access Connect. The link contained in this email will remain valid for **two (2) weeks only**. Please ensure you click on this link within the two week time frame. Once your registration is complete the school will manually allocate Year 11 and 12 students to your account. We will monitor parent registrations and add students on a daily basis in Term One but please note it could take up to two days for student records to show in your account.

Connect provides easy access to information relevant to your child's classes, assessment results, teacher feedback and attendance data. Please note that we are in a phase of implementation and some classes will be using Connect more than others. We expect this to grow over time and become increasingly beneficially to parents.

Parents can access Connect on any internet enabled device. Notifications can also be received via email or the Connect Now app, which can be downloaded from the [Apple App Store](#) or [Google Play](#). Parents will be able to adjust their notification preferences to suit their individual needs.

If you have not provided the school with a current email address, need your password reset or have any difficulties please feel free to contact the school administration (Tania Martyn) on 9722 2400 for assistance.
