How to talk to your child about sex

The Department of Health are re-publishing *'Talk soon. Talk often: a guide for parents talking to their kids about sex'*.

We need your help

Parents of children under 18 years are invited to come and share thoughts and experiences to help shape an updated edition that continues to provide best support to parents as their children grow.

Talk soon. Talk often was the first resource of its kind in Australia and is highly regarded by parents, schools and the wider community.

It aims to help parents understand how best to share their values and educate their children about sexuality.

Participants will
receive a \$25
supermarket
voucher and a
light lunch

Workshops will run for two hours.

Sessions will be facilitated by Department of Health and recorded in digital or paper format for reference by facilitators only.

All responses will remain anonymous and you will **not** be identified in the new edition of *Talk soon. Talk often.*
