

September 2018 Exam Preparation

This course will deliver a comprehensive exam preparation program aimed at preparing year 12 students for their final school exams and ATAR exams in November.

These classes will focus on specific exam questions and explain in detail how the syllabus content can be employed to construct successful examination responses. These classes offer students a structured revision program that will add value to the independent study they are doing at home.

Program includes:

Subject Revision – 6 hours of teaching: The foundation of the program focusses on re-teaching and revising the specific syllabus areas that will be assessed in exams.

Exam Preparation: The classes focus on the revision of topics followed by a discussion on how this material is assessed in exam style questions.

There is sufficient time within the program for teachers to model how to answer exam questions successfully as well as time for students to independently practice constructing their own answers.

All the teachers involved in this program have significant marking experience and know what needs to be addressed to ensure students meet with success in exams.

A Successful Program

Students attending exam preparation programs report that they feel more empowered and confident in tackling the examination.
