

Conservation Volunteers Australia Rio Tinto Earth Assist

School Holiday Program – September/October 2018

For students wishing to complete community service hours and help conserve our natural environment.

What is Rio Tinto Earth Assist?

Rio Tinto Earth Assist is a **FREE** program for school students, where you can step into the environment and contribute to real conservation projects. Participants will learn conservation skills, gain a greater understanding of our environment, and help ensure a sustainable future.

What's involved in the School Holiday Program?

You will meet the Team Leader at a central pick-up point in Northbridge at **8:45AM**. You will then travel by bus to a conservation site in Perth where you will participate in hands on conservation-based activities such as land maintenance and helping out at wildlife rehabilitation centres. The day concludes by **3:00PM** when you are returned to the Northbridge pick-up location. **So come along, make some new friends and enjoy the positive experience of conserving our environment!**

Please note that participants must have turned 15 years old by the project day to participate in the program. Participants need to bring their own food for the day, wear long trousers, long sleeves, enclosed shoes, and a hat. Conservation Volunteers provides water, sunscreen, educational resources, tools & equipment, and activity-appropriate safety & personal protective equipment.

When & where can I sign up?

We are running activities **Tuesday to Friday** from **Tuesday 25th September – Friday 5th October 2018**.

Only 8 project days with limit spaces so get in quick!

For more information & to make your booking please;

Email: perth@cva.org.au

Or call the Conservation Volunteers Perth Office on (08) 9335 2777 and mention Earth Assist.
