

Local students invited to apply for a once-in-a-lifetime wilderness adventure

Alcoa Foundation is partnering with NatureBridge to send high school students from around the world on a two-week environmental expedition to Yosemite National Park or Olympic National Park in the United States in July and August 2020. Students will hike through magnificent terrain, camp under the stars and conduct scientific research.

Applications close 3 March

- Students aged 16-18 from communities near where Alcoa operates can apply
- All fees and travel costs are covered

Visit naturebridge.org/alcoascholars to find out more and to apply
